	Hello	1:27:26 AM
William Mays	Hello Shashwat	1:27:38 AM
Shashwat Verma	Could you please elaborate on your issue?	1:28:33 AM
William Mays	Yes, it appears we were targeted via a scam and our quickbooks license number was given out. From everything we understand it was ONLY the license number and nothing else. Do we need to take any further action such as changing our license number?	1:29:30 AM
Shashwat Verma	I will surely help you with this issue.	1:30:07 AM
	Let me know the medium through which you get the license details delivered?	1:30:46 AM
	Or the instance you have faced? however license number alone can't make any breach issue	1:31:23 AM
William Mays	I believe it was over the phone but we are not 100% sure. It was only the license number, no other information.	1:31:44 AM
Shashwat Verma	Okay, we recommend not to share any validation code ever asked other than us or intuit	1:32:36 AM
	As combination of license, product number and the registered email address can lead to any data breach	1:33:12 AM
	Moreover, we appreciate your efforts to keep the system and server secured.	1:33:51 AM
William Mays	Okay, thank you. That is the big thing we needed to know. We will likely report our license number as compromised to intuit so I would assume we may have a change in the coming days but I'll reach out to you with any further information I receive.	1:35:24 AM
Shashwat Verma	We assure you that you are using one of the safest servers, moreover, will get this updated in your records for any future instance.	1:36:19 AM
William Mays	Thank you!	1:36:48 AM
Shashwat Verma	Is there anything else I may help you with ?	1:37:13 AM
William Mays	Nope, that's it. Thank you Shashwat	1:37:51 AM

Arvind Kumar	sure...	2:52:08 PM
Shubham Maurya	We have switched your RDP file gateway to best working right now, this will bypass all the other gateways which might be slower for your location.	3:10:57 PM
	Also we have tuned RDP file to reduce data which is getting transferred over the connection to speed up the available connection.	3:12:37 PM
Arvind Kumar	Thanks — appreciated. Switching the RDP gateway to the fastest available option should help reduce latency and avoid slower gateways in my region. Please confirm whether any action is required on my	3:13:13 PM

	side, otherwise I'll test the connection and report back if I encounter any issues. Thanks again.	
	Okay	3:13:37 PM
	so we can face any issue after switching the RDP gateway	3:14:23 PM
Shubham Maurya	<p>Also want to inform about this issue which is recently faced due to cable damage.</p> <p>This is to inform you that, as of September 6-7, major undersea internet cables have been cut in the Red Sea region. These cuts have disrupted connectivity across Asia, the Middle East, India, and Pakistan. Critical cable systems (SMW4 and IMEWE) were affected near Jeddah, <b>resulting in degraded internet performance, higher latency, and slower speeds for cloud services, streaming, and global communications.</b></p> <p><b>Key Points:</b></p> <p><b>Temporary slowdown in cloud and internet services.</b></p>	3:14:26 PM
	Yes you won't be facing any issue now as RDG gateway will bypass your connection to any available gateways which cloud be slower, but now we have manually selected the fastest available at your region.	3:15:52 PM
	You don't have to do any further action Arvind, just test the server and please do let us know in case if you face any such issue again. We are always here to help you out. (Edited)	3:16:28 PM
Arvind Kumar	Thank you again	3:16:56 PM
	it's working fine now	3:17:03 PM
Shubham Maurya	You are most welcome and thanks for your patience and understanding with us while working on this.	3:17:21 PM
