Anjainay Singh	Hello Louis, how are you?
louispav	doing well, you?
Anjainay Singh	I am fine, could you please let me know the issue you are facing at your end so that I can assist you accordingly?
louispav	I am getting the "the file you specified cannot be opened..." error message every time I go to print anything, I have to click it returns immediately. I tried running QB as Admin but that did not work  you can hop on and take a look
Anjainay Singh	Sure, could you please confirm since when you are facing this issue?
louispav	it's happened a couple times, but goes away after a day or two. I can still print stuff so I've dealt with it, but it's very annoying issue, but I didn't want to download and load the QB Tool Hub
Anjainay Singh	I understand your concern , could you please confirm are you facing this issue with other company file or specific company file?
louispav	we only have 1
Anjainay Singh	Thankyou for your confirmation.
	Could you please share the screenshot for the issue with me ?
louispav	one moment
	<i>6:35:41 AM louispav is sharing a file with you <a href="#">image.png</a> - ( Size:39.14 KB )</i>

Anjainay Singh Thankyou Louis , please allow me 3-4 minutes to check it at my end .

May I take the remote access of your server?

Are we still connected here?

louispav we are

yes you can

Anjainay Singh Thankyou.

I have initiated the remote session , please accept the request.

louispav Accepted

do you want me to enter the password?

or you can: Bella#

sorry, Bella#30471

Anjainay Singh Please allow me two minutes afterwards you may enter the password.

Please login into the company file again.

Louis as I have checked it at my end that QuickBooks update is pending and we need to repair and update the QuickBook

louispav how do I do that on my own? I've tried but it won't let me

Anjainay Singh Yes I understand , I will update it on your behalf .

louispav ok

Anjainay Singh I am prioritizing this issue and will do it on urgent basis.

Once it is done our team will inform you over an email and as update requires server reboot .

Is there anything else I may help you with ?

louispav great. I do have one question- we only use one printer out of QB to print to our remote computers. Is there a way for QB to use the Microsoft Print to PDF (redirected 2) printer

Anjainay Singh As I have understood you want to use single printer always to print the PDF from QuickBooks , am I right?

louispav correct, that printer works perfectly every time, but every time you print something you have to go and select that printer even Print to PDF, it will then tell you the size of paper is off, so you have to go back, select the correct paper size, then it would be so convenient if, every time, the same printer was selected automatically.

I've gone into the PRINTER section in Settings and made it a Default, but that doesn't work for long at all

Anjainay Singh Could you please share the call back details in below format so that I can arrange a call back for this issue and one of our settings?

louispav -sure: -310-383-4412. But it's late in the evening here, can they call tomorrow?

Anjainay Singh I think assisting over a call will resolve quickly.

Yes they will call you tomorrow.

louispav sounds good. Thank you!

Anjainay Singh	Please also share your timezone and suitable time for calling. (Edited)
louispav	Pacific Standard Time (it's 6:30pm here)
Anjainay Singh	Thankyou.
	Please also share your positive feedback by clicking on smiling emoji after I end this chat.
louispav	ok
Anjainay Singh	Thank you for choosing ACE cloud Hosting, you have a wonderful day.

christian.lopez	The Quickbook files and the other users will not be affected yes?
Shubham Maurya	Yes, this will not affect the QuickBooks file or any other users.
christian.lopez	Okay
	Please let me know when it is done.
Shubham Maurya	Thanks for the patience Christian, We have successfully done profile reset for Lindsey. Please ask her to login back and check
christian.lopez	Having her sign in now
	Are you able to reinstall the Registry Key that you use. OneDrive I checked and it is not there in Registry Editor.
Shubham Maurya	Yes, it's already installed over there. Let me check this at your end.
	May I take the remote access of your local computer?
	or I can directly take remote for Lindsey server screen?
christian.lopez	Do you not have the ability to push a script or batch file to the registry editor to make sure the key is added.

Shubham Maurya	We can add the registry key if it's missing, but first, we need to check the exact scenario.
	Can you share a screen shot where you are checking it?
	HKEY_LOCAL_MACHINE\Software\Policies\Microsoft\Windows\OneDrive
	Are you checking at this path?
christian.lopez	The path is not there.
	I checked it up and down and it does not appear.
Shubham Maurya	Yes, we can also see that the OneDrive folder is missing. A clean install should have recreated it, but that didn't happen in your case.
christian.lopez	Are you able to add it?
Shubham Maurya	Let me check please hold on.
	We have added onedrive app setup on your desktop, please try to run the same alternately we would request you to share the server session with us in order to identify the issue and rectify it.
christian.lopez	Sorry try again
	How is this happening with a new profile?
Shubham Maurya	Were you using <b>onedrive</b> or <b>ondrive business</b> for other profiles?
christian.lopez	Onedrive
Shubham Maurya	Let me run script on the server.
christian.lopez	Also how is it missing from Control Panel
Shubham Maurya	OneDrive is a built-in Windows app, but it might be missing from the Control Panel. Let's check again after running this script.
christian.lopez	Do we need to reset her session after the script runs?
Shubham Maurya	Please hold on let us check after this step, we are working with senior team to fix it as early as possible.
	Can we perform server reboot now?
christian.lopez	One minute. We need to notify the department.
Shubham Maurya	You are the only person active right now on the server.
christian.lopez	ok than please reboot it.
	How long until we can try to sign back in.
Shubham Maurya	It's rebooted now.
christian.lopez	I can sign in again?
Shubham Maurya	Please wait we are confirming the app working right now.
christian.lopez	Let me know when you are done.
Shubham Maurya	The team is still working on it, as running the script was not successful in this case. Trying other ways to install onedrive later.
christian.lopez	Okay
	How is it going?

Shubham Maurya	Installation using an alternative method has been completed. We're now checking if the app is working. If it still doesn't work, we will escalate to our escalation team.
christian.lopez	Ok
Shubham Maurya	Thanks for the patience. We've tried every possible method at the application installation level, but it's still not working. We will need to perform operating system level or other necessary changes overnight. Please allow the escalation team some time to work on this issue.
christian.lopez	We sincerely apologize for the inconvenience this issue has caused and we appreciate your understanding and cooperation.
christian.lopez	Are you able to provide me or my Director Zach Admin Privileges so we can take a look on our end? We need this issue resolved as soon as possible.
Shubham Maurya	Sure, we can provide admin access once we have a confirmation over the mail from POC registered mail ID. You can ask them to send it to (mailto:zachary.shade@attorneyguss.com), over the ongoing ticket #793984
christian.lopez	There is disclaimer which needs to be agreed after the mail, once done then admin access is given to the user.
christian.lopez	Let me see how he wishes to proceed
christian.lopez	One moment please.
Shubham Maurya	Sure, you can ask them to mail us whenever they want to get admin access.
christian.lopez	Can you provide me the email for admin access.
christian.lopez	Also once the request is received how long is the turn around time?
Shubham Maurya	Sure, once this chat ends, we will forward the details via email along with the admin access disclaimer. We need to process this request and once confirmed, they can begin working on it once the details are sent. The turnaround time for admin access will be 1-2 hours after we receive the request.
christian.lopez	Please do so and please provide that email access request. I will be following up on the Admin Request to see when my IT team can begin working on it.
Shubham Maurya	Sure, I will do my best to make this happen as quickly as possible. Once we receive confirmation from the POC via email, we will forward the details to them.
christian.lopez	Is there anything else I may help you with ?
christian.lopez	I just want the end user to be up and operational soon.
Shubham Maurya	We want the same outcome. If I had the access to address operating system level issues, I would have resolved it by now. However, we don't have access. They will take care of this issue and ensure it is resolved permanently. We just need them to start working on it to resolve the issue.
christian.lopez	We understand the inconvenience this may have caused.
christian.lopez	Then they may begin.
Shubham Maurya	Sure, will forward the ticket after this chat.
christian.lopez	Is there anything else I may help you with ?
christian.lopez	Not at the moment. Please send me everything we need on our end.
Shubham Maurya	Sure, you can expect the details over the mail in next 5-10 min after this chat ends, on your email christian.lopez@attorneyguss.com
christian.lopez	Thank you.
Shubham Maurya	Most welcome, thanks for your patience and understanding with us while working on this issue.
christian.lopez	Have a good one !
Shubham Maurya	Thank you for choosing ACE cloud Hosting, you have a wonderful day.

Shubham Maurya		We'll need a renewed license from Intuit to get it working. You can locate the version you're using in the list on the Intuit portal.

Hi, I'm accessing the payroll 2024 app in the remote desktop. When the authenticator screen appeared, I forgot to scan the QR code and accidentally clicked the continue button. Therefore, I'm unable to return to the authenticator thus I can't log in correctly. Is there's a way to reset that process?
