George Fowler	hello this is the most recent message i received regarding my issue	1:53:42 AM
	Dear George gpmfowler, Greetings from Ace Cloud! Ticket ID: 763199 Following up on our recent chat, we attempted to restore your company files from earlier dates (September 4-6), but unfortunately, the restored files also exhibited missing data. We then accessed the files via user profiles for Fran and	

Matt—where the correct data initially appeared to be visible—but upon closer inspection, their files also showed inconsistencies. Since we confirmed that all users are accessing the files from the same server location, this rules out any discrepancies caused by accessing different file paths. As the next step, we recommend the following: Perform a Verify and Rebuild Data on each affected company file Run QuickBooks Tool Hub to check for file damage and repair To proceed with these actions, we will need administrative credentials. As you had to step away earlier, kindly let us know your availability so we can reconnect in real time and continue with the troubleshooting. Looking forward to your response. Please feel free to reach us if you need further assistance. You may contact us on our 24/7 helpline on 888-415-5240 (toll-free) or you may reach us on our instant chat support through Ace Cloud Hosting We would love to hear from you, please share your feedback at quality@acecloudhosting.com.
