Sharath Kumar	Thank you for contacting Ace Cloud Hosting. My name is Sharath Kumar. I will be assisting you today.	9:49:29 PM
jon	i am running latent	9:49:35 PM
	so is everybody else in my office	9:49:40 PM
	our internet spped is 150/150	9:49:47 PM
	need this fixed asap	9:49:52 PM
Sharath Kumar	Hello Jon, sorry to hear about your concern	9:49:55 PM

	I am signing into the server to check this	9:50:15 PM
jon	thank you Sharath	9:50:22 PM
Sharath Kumar	in the meantime could you provide a screenshot of the speed test from your local computer	9:50:39 PM
	<i>9:51:56 PM</i> jon is sharing a file with you <u>image.png</u> - (Size:95.45 KB)	9:51:56 PM
	Thank you! I am on the server and I see that the CPU utilization is at 100%	9:53:05 PM
	checking to see what's causing this	9:53:15 PM
	since when is this happening? any change in application that you are aware of?	9:54:51 PM
jon	1-2 hours	9:55:02 PM
	no new applications	9:55:05 PM
Sharath Kumar	allow me a few more minutes to work on this	9:57:12 PM
	Thank you for your patience. I have identified the issue as a few windows processes were utilizing too much CPU. I have closed those processes and the average utilization is now at 50%	10:05:21 PM
	could you confirm if that indeed resolve the slowness issue	10:05:40 PM
	Are we still connected here?	10:11:14 PM
jon	yes i am here	10:12:28 PM
	i am testing now	10:13:09 PM
	how do we prevent that from happening again	10:13:13 PM
Sharath Kumar	it is unusual for the windows processes to utilize that much CPU	10:14:06 PM
jon	this has been happening at least twice a week for last month	10:14:50 PM
Sharath Kumar	I will definitely be looking into the reports from past month regarding the CPU utilization and if it found to be excessive, we can increase the number of CPUs on the server to minimize the load	10:16:43 PM
jon	yes please do	10:17:58 PM
	my understandning is that we should have unlimited CPU so not sure why we keep hving this issue	10:18:14 PM
Sharath Kumar	You do technically get unlimited CPU because when needed the host of the server will allocate more CPU's to your server. Since they are not dedicated CPU's the CPU ready time interferes with it and it take a bit of time to assign those CPU's to the server.	10:22:12 PM
	We are checking with the senior team as we speak to see what is particularly causing the slowness and CPU load. Please allow us some time.	
jon	ok, about how much time should i expect a reply on that?	10:22:43 PM
Sharath Kumar	The senior team is checking the issue right now, alongside me. We will let you know about the findings in 4-5 mins.	10:24:25 PM
jon	thank you	10:30:40 PM
Sharath Kumar	Sorry for the long hold! took a while to figure out that citrix component within Ultratax has been on high utilization as well	10:38:55 PM

	We will shortly increasing the CPUs on the server and we are confident that it should resolve your concern	10:39:35 PM
jon	ok thank you	10:40:04 PM
Sharath Kumar	Please allow us half hour to get this added, no need for server restart or user sign out	10:40:31 PM
	Please let me know after a couple of hours if the latency got better	10:41:01 PM
	I will start the procedure to get the CPUs added	10:41:14 PM
	anything else that I may assist you with in the meantime?	10:41:32 PM
jon	that is all thank you	10:42:50 PM
Sharath Kumar	alright, Jon. Wishing you good rest of your day	10:43:08 PM
	You may end this chat now. Once you end this chat, you will receive an email from us regarding this conversation, along with a ticket number and survey feedback form.
