

## How to fix Import .qbo Bank Feeds -3371 error

This article's goal is to assist you on how to fix the -3371 error that a user might get when attempting to import bank feeds in .qbo format.

You can encounter a -3371 issue when using a bank file (.qbo) that you tried to open directly from a webpage. Web connect (.qbo) files are online banking transactions from your bank's website.

Even though we host every version of QuickBooks which are currently available, the application sometimes chooses the incorrect version when you double-click on a bank file to open it.

Learn how to import .qbo bank feeds (-3371 Error) by following the below steps:

**Step 1:** First, launch a web browser and go to the website of your bank.

**Step 2:** Log in to your bank account normally.

**Step 3:** Go to the **transaction (.qbo format) download page**.

**Step 4:** To get the data, click on the relevant **download button**.

**Note:** If you are given the choice to **Save As**, pick a location that will be simple for you to recall (i.e., Desktop, My Documents, etc.)

**Step 5:** Avoid double-clicking or clicking **Open** on the file. Instead, if it isn't already open, **launch QuickBooks**.

**Step 6:** In QuickBooks, select the **File** option from the menu in the top left-hand corner.

**Step 7:** Select the **Utilities** option under the **File** menu. On the next tab, select **Import**. Finally, select the **Web Connect Files...** option from this menu.

**Step 8:** Find the location where you kept the .qbo file (either the Downloads folder or the custom location you chose.)

**Step 9:** Select **the .qbo file** by clicking on it, and then click **Open**.

It should now import your bank feed without any issues. Get in touch with Intuit technical support using the QuickBooks Help menu if you have any issues.
